

The Dow Chemical Company
Midland, MI 48674
U.S.A.

August 8, 2011

Dear Distributor:

Effective September 1, 2011, The Dow Chemical Company ("Dow") will increase list and off-list selling prices on select products within the Oxygenated Solvents portfolio, as listed on the attached document.

Supply of our key raw materials is tightening ahead of significant near-term cracker and refinery maintenance outages, causing upward price pressures. Therefore, this increase is necessary to ensure we can compete for the raw materials needed to meet your business' needs.

Please contact your Dow sales representative to answer any questions you might have regarding this increase.

Thank you for your past business and continued support of Dow Oxygenated Solvents.

Sincerely,

A handwritten signature in black ink that reads "Mark R. Bassett".

Mark Bassett
Global Business Director
Oxygenated Solvents
