RE: Price Increase announcement

Effective July 1, 2011, and where contracts allow, BP will increase off-list prices in the Americas as follows:

<u>Product</u>	<u>North America Increase</u>	<u>South /Central America Increase</u>
Acetic acid**	\$0.03 / lb.	\$66 / MT
Acetic anhydride	\$0.03 / lb	\$66 / MT

***Acetic acid blends with water will increase proportionate to the acetic acid content of the blend*

These increases are necessary due to increased market demand and the escalation of energy and logistics costs. Your Account Manager or I will contact you shortly to discuss particular pricing for your account. We value your business and look forward to continuing this relationship into the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lou Williams'.
